

Westport's Future Is Non-Partisan

...and so is Save Westport Now, a P&Z-focused political party that's been giving voice to what matters to Westporters for the past 40 years.

We live in a political climate defined by extremely partisan perspectives. But the planning and zoning challenges that Westport faces are non-partisan! They affect all of us in this historic, coastal town.

If you are concerned about how Westport deals with:

Climate change

Drainage

Traffic Congestion

Over development

Air pollution

Equitable housing

Economic viability

Vote line "E" for the P&Z.

It will send a message about the issues that you care about – [issues that our team has already been addressing](#).

We need your vote on line "E" to make sure that Westport is prepared for a future that's already here. **Vote line "E" to Save Westport Now!** And, please, if you know someone who shares these concerns, forward this email to them.

See you at the polls on November 2,
Ian Warburg & Jerri Graham
Co-Chairs

PS: One question we often get is why we have the same candidates as the town Democrats. Each election, SWN carefully vets the candidates running for P&Z and selects those who best represent our values. Often, those candidates are also nominated by a political party. Over the years we have supported both Dems and Republicans. Voting line E for Cammeyer, Dobin, and Cohn gives them the same chance of getting elected as voting for them on the Democratic line, but voting line E shows that the issues mentioned above are important to you. We hope you will!
